

GRAND TRAVERSE PLASTICS

Scale New Heights in
Performance and
Partnership—
Discover GTP and
Gain the Advantage
with your Plastic
Components

Why GTP?

- 36 injection molding presses, 110T to 1500T
- Fully fitted with automation & robotics
- 3 Michigan facilities, IATF16949 certified
- Named 5 times GM Supplier of the Year
- Numerous industry awards

Read more about why GTP is the low-risk, high-quality injection molding partner that helps your business scale. Call GTP today, [+1-231-267-5221](tel:+12312675221), let's climb that mountain together.

Low Risk

Made in America

GTP is an IATF14969 certified U.S.-based manufacturer with proven quality and delivery records.

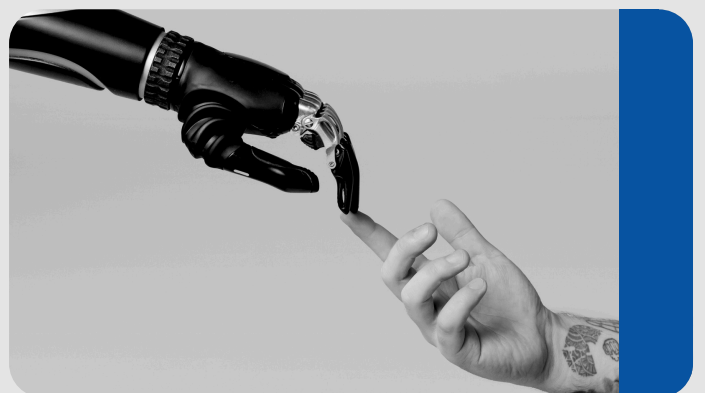

Engineering

Partnership & guidance

Expert guidance from initial design, prototype, mold flow analysis, VE/VA projects, to mass production & even metal-to-plastic conversions.

Automation & innovation

Robotics-driven process control for high precision and speed, not everywhere but where we need it.

Expertise in Material Science

We have in-house experts with solutions for functional, durable, cost effective parts, & we're not afraid of continuous improvement or to develop a solution if none doesn't exist, yet.

Sustainability & ESG commitment

Environmentally conscious manufacturing aligns with values as an organization and as individual citizens.

IT'S TIME TO WORK WITH A MOLDER THAT EXCELS IN THE COMPLEX & TAKES PLASTICS TO A NEW LEVEL. DON'T WASTE ANOTHER DAY, [CALL GTP TODAY](tel:+12312675221).
